SUMMARY

Passionate computer science engineer with a strong background in deep learning, data science, and natural language processing. Skilled in Python, TensorFlow, and various ML libraries. Excellent problem-solving, research, and collaboration abilities. Seeking a challenging role to develop cutting-edge AI solutions.

TECHNICAL SKILLS

Programming Languages: Python, C++, Java, SQL, MATLAB

Deep Learning Frameworks: TensorFlow, Keras

Libraries & Tools: NumPy, Pandas, OpenCV, Git, Docker

PROJECTS

AI-Powered Voice Phishing Detection

Speech Recognition and Anomaly Detection

June 2025 – Present

Python, Librosa, PyDub

- Developing a system to detect voice phishing attacks using audio pattern analysis
- Combined speech recognition techniques with anomaly detection for real time threat detection
- Addressed a less-explored domain, contributing novel insights to voice-based security research

Sentiment Analysis API

Natural Language Processing

Feb 2025 – May 2025

Python, Flask, NLTK, Hugging Face

- Built a RESTful API for sentiment analysis of text data
- Implemented pre-trained transformer models using Hugging Face
- Deployed the API on a cloud platform for easy integration

Offline AI assistant

Speech Recognition and Natural Language Processing

Sep 2024 – Dec 2024

Python, GPT4All, TTS, Docker

- Developed a fully functional AI assistant capable of running without internet access
- Integrated Whisper for speech recognition, GPT4all for offline NLP and TTS engines for voice output
- Used LangChain, Hugging Face and transformers to handle user prompts and tasks in a local environment

EDUCATION

Indian Institute of Technology Madras

B.S. in Data Science and Programming

Chennai, Tamil Nadu

Aug 2023 – May 2027

Vellore Institute of Technology

B.Tech in Computer Science and Engineering

Bhopal, Madhya Pradesh

Sep 2023 – Jun 2027

CERTIFICATIONS

- AWS Certified Machine Learning
- NPTEL certification in Introduction to Machine Learning
- MATLAB Associate Certificate
